"LET US REJOICE."

We hail the auspicious event of the admission of two ladies to the Utah bar, in the persons of Miss Rhoebe Conzins, of St. Louis, and the intellectual daughter of Judge Snow of this city. The Tribune has from its birth been foremost in maintaining the woman's cause, and advocates both the policy and the right of making her a power in society. She shall be man's equal in all things, and share with him all the privileges of the citizen, not only in the representation but in the government, and in every profession and sphere of life to which she may find herself adapted. We can therefore cordially rejoice with those who do rejoice over the admission of these two ladies to the bar of Utah, and that too, not in hypocrisy nor for effect, but because it is at once in harmony with the advancement of the race, and now with the platform and future action of the great Republican party.—[Salt Lake Tribune.]

We fail to see in what sense the admission of women to the bar is an "auspicious event," unless it be auspicious of the destruction of the social fabric and the consequent degradation of woman ultimately. We maintain, and it cannot be successfully contradicted, that God made man and woman to occupy different spheres. They differ physically and mentally, yet each is necessary not only for the happiness and well-being of the other, but for the perpetuation of the human family. It will hardly be denied by the special advocates of what is called "woman's rights" that the highest, noblest and most exalted sphere of woman is that of maternity. If woman is to pass through life in a state of celibacy, she might with propriety be admitted to the bar, to the ballot box, and to all the occupations. But she was intended by the Creator to counsel and guide man in the path of virtue, to solace him in the hour of trial, to be his comfort and support in sorrow and sickness and to be the mother of his children. Nature has endowed almost every female with a desire to take upon herself the duties of maternity. Indeed, a woman cannot be said to have reached her highest sphere until she becomes a mother, and in that sphere do her many virtues shine with the greatest lustre. Now, we submit that no mother can do justice to her children and at the same time perform the duties of a lawyer. Imagine Mrs. Fitznoodle as counsel for the prosecution in a murder case, where the shocking details of the tragedy are described with such minuteness that strong men even are filled with horror. Then comes the torture of an overruling Judge, whose decisions upon points of law are not unfrequently very irritating to a counselor; then the badgering of some stupid or reticent witness in order to worm the truth out of him, the long and elaborate argument to the jury, and then, we ask, in what condition would this mother be, after such an ordeal as this to minister to the wants of a tender babe? And if by chance the jury should agree upon a verdict during the hours of the night when most people are supposed to be slumbering sweetly, the scene of woman's "rights" would be reached when this mother was called from her bed to leave her little one and proceed to the Court House to hear the verdict read.

So much for women as lawyers. Then what of woman suffrage? In our estimation no wider scheme ever filled the brain of an enthusiast; no greater political and social monstrosity could originate outside the realms of His Satanic Majesty. The admission of woman to the ballot would tend to create jealousies where none now exist between men and women occupying the same social position, and destroy one of the greatest blessings vouchsafed to man—woman's friendship, disconnected from any matrimonial thoughts. The friendship of woman to man excels all other friendship; there is no friend like the woman friend—she ever counsels man to prudence, sobriety, honor and virtue, and actuated by none of the petty jealousies which men entertain towards each other, always takes pride and pleasure in her male friend's advancement to higher and more honorable stations.

As jurors or judges women would prove failures. The impulsiveness of their nature, their warmth of heart, the mercy with which they regard the sins and errors of others, unfit them to grapple with the cold, calculating realities of a law which may consign a fellow-being to death or imprisonment.

With an exalted estimate of woman's noble attributes, a high admiration of her many virtues, and the sacred memory of a mother long since numbered among the dead, we protest against the new-fangled nonsense about making woman man's equal, when she is now, and ever should be, man's superior in every attribute where truth, virtue and honor prevail.

It is recorded in the Book of Books that while Adam slept God took from

him a rib and of it made woman. She was not taken from his head that she might be above him, nor from his feet that he might trample upon her, but from his body and nearest his heart, that she might be of him and under his protection.

Telegraphic Dispatches.

SPECIAL TO THE RECORD, VIA DESERT TELEGRAPH
Pacific Coast, Eastern and Foreign.

PACIFIC COAST.
San Francisco, Sept. 26.—It is asserted that one gentleman of this city has contributed \$4,000 to the Greeley State Central Committee.

The testimony in the Fair-Crittenden case has closed, and District Attorney Murphy has opened his argument for the prosecution. He will be followed by Quint for the defense, Campbell for the prosecution, and Curtis will make the closing argument for the defense. It is thought the case will go to the jury tomorrow.

Salem, Oregon, Sept. 27.—The Legislature to-day in joint convention proceeded to ballot for a U. S. Senator. No new nominations were made. Burbank and Walker went over to Mitchell, making Mitchell 34, Slater 12, Corbett 9, Cromer 5, Prim 8, and McArthur 3.

San Francisco, Sept. 27.—Judge Robinson, attorney for the railroad company, has discovered that the Ravenswood bridge ordinance, passed by the Supervisors, is null and void. The board is trying to cure the defect.

Salt Lake City, Sept. 27, 9:35 p. m.—To this hour the jury in the Fair-Crittenden case has not returned a verdict. The most lively interest is manifested in the result here, and every means will be employed to have the verdict received here as soon as rendered.

EASTERN.
New York, Sept. 26.—The Coroner's jury in the case of Jos. Burnett, who was killed in a quarrel with his brother-in-law, Landers, rendered a verdict today against Timothy and Garrett Landers as accessories.

Enoch L. Faucher was to-day sworn in as Judge of the Supreme Court in place of Barnard.

Forrester, who sued out a writ of habeas corpus, which was to have been argued to-morrow, has directed his counsel to withdraw the writ, in the belief that it would be dismissed. Forrester consents to return to prison at Joliet, Illinois.

At 10 o'clock to-night Michael Garling, on the Heights of Jersey City, murdered his wife by stabbing her, and then cut his own throat, dying instantly.

Terre Haute, Ind., Sept. 26.—William Irvin, 80 years old, residing two miles from this city, was murdered this evening by his son-in-law, Andrew J. Miller, with an ax. The trouble originated in the old man reproving Miller for spilling a barrel of cider. Miller is in custody.

Washington, Sept. 26.—J. Milton Turner, a colored minister residing in Monroe, Va., and formerly of Liberia, has instituted a suit against the proprietors of the Arlington House, on the ground of having been refused admission as a boarder.

Philadelphia, Sept. 26.—The race for a purse of \$1,500, for horses that had never beaten 2:37, was won by Star. Time—2:34 1/2, 2:36, 2:34 1/2, 2:33.

Sunbury, Pa., Sept. 26.—Greeley arrived here this evening, and made a speech, in which he declared Vermont and Maine were carried by money and by purchased votes; that all the opposition to the Liberals depended upon was money; and he asserted the belief that Pennsylvania would elect the Liberal ticket in October.

New York, Sept. 27.—A Paris correspondent who interviewed Gambetta reports him saying that the National Assembly has been so beaten and bullied by Thiers that it has become simply a register of the President's will; that neither Thiers nor the Assembly represents the country; and he predicts that on the re-assembling of the Assembly it will dissolve itself out of sheer despair. In any contingency, a Republic is now the only possible government for France. Thiers he thinks will receive the support of the Republicans of the country. He thinks that France meditates no further war with Germany; but she will by her Republican greatness sweep the rotten German Empire from the face of the earth by peaceful means.

Boston, Sept. 27.—The burning of John McInnis & Co.'s wool warehouse in Congress street, last night, involves the loss of about \$75,000.

Buffalo, Sept. 27.—Captain Tunnelve, of the wrecked barge Iron City, arrived here safe last night. He came ashore on a plank.

Two companies of the 3d regiment of the State militia, while returning on the Harlem road from a drill on White Plains, got into a fight and used muskets and bayonets freely. It is reported that two were killed and twenty wounded.

Cleveland, O., Sept. 27.—Later reports from Newbury state that six persons, including three already telegraphed, are victims of the late asylum fire. Isaac Heron was so badly burned that he died in a few hours. Wm. Edwards and Wm. Morgan are missing,

and were last seen going into the building; but when the large water tanks fell from the top of the main building they must have caught them, and possibly others, as the tanks fell without a moment's notice. It is still thought that some of the missing escaped during the fire. Over 100 will be sent to Dayton to-day.

FOREIGN.
Madrid, Sept. 26.—Senor Rivero was to-day elected President of the Cortes by a vote of 176 to 30. The Vice-Presidents and Secretaries of the last Cortes were re-elected. The Minister of Finance will present the annual budget to-morrow.

London, Sept. 27.—Lord Chancellor of the Exchequer in a speech at Glasgow, last night, severely condemned Sir Alexander Cockburn for not signing the award of damages in the Alabama claims and for publishing his argument, which opens up questions and renews ill feeling. He insists that it is the duty of England to accept the award loyally. It is said that efforts are being made to require Mr. Laird, the constructor of the Confederate privateer, the Alabama, to pay a portion of the sum awarded the United States by the Geneva arbitration.

Mr. Chas. D. Kenyon met with an accident a few days since. He was walking on the loft of a barn and fell through the hatchway to the floor, a distance about 15 feet, dislocating his arm. He is getting along quite well under the circumstances, but it will be several weeks before he will be able to attend to his duties at the saw mill.—Deer Lodge Independent Sept. 21.

DAILY.—The Pioche Record now appears daily without any diminution in size. It is the largest daily paper in the State outside of Virginia City, and deserves the patronage of the people of Lincoln county, whose interests it has always ably advocated.—[Reese River Reville.]

GOOD FOR PIOCHE.—The Pioche Record is out as a daily. It has also just got a new head—two new heads, by Gemini! A new editor, without which it would soon have been damned, and a new title-head, with which it looks like a live paper. Success.—[Ogden Junction.]

PIOCHE DAILY RECORD.—We have received the first numbers of the new daily issued by Pat Holland. It is bright and new, and has a fine display of advertisements. We wish it every success.—[Utah Mining Journal.]

PIOCHE "DAILY RECORD."—This sprightly paper has changed from semi-weekly to daily publication, the first number of the daily being issued on Tuesday last.—[Virginia Chronicle.]

PIOCHE DAILY RECORD.—Pat Holland has made his paper a daily. It is lively and city-like and ought to get Pioche amalgam into Pat's pocket by the pound.—[Carson Appeal.]

The first daily issue of the Ogden Junction appeared on Saturday last. We wish it success.
